Advertising

With Alert Diver your advertisements can reach hundreds of thousands of divers throughout Europe.

Advertising spaces are available in the form of online banners on the AlertDiver.eu website. Alert Diver provides a set of 4 ad units. Rates are calculated on a set period of time, and can be differentiated according to the selected languages (English, French, German, Italian, Dutch, Spanish already available. Czech, Polish, Finnish and Portuguese coming soon).
Ads that include a website address are hyperlinked to that URL.

Have a look at our Media Kit and find all details regarding the magazine itself and the advertising specs.
